

## Copper Sealtite 2000®

Asphalt free copper fabric flashing  
United States Patent # 6,696,141

Advanced Building Products was the first copper laminated flashing manufacturer to develop and patent a non-asphaltic copper fabric flashing, **Copper Sealtite 2000®**, back in 1999. Copper Sealtite 2000 is the non-asphaltic version of our widely specified copper fabric flashing, which has a successful track record dating back close to 100 years.

### Benefits:

- **Compatible with most air barrier systems**
- Compatible with most water based latex sealants
- Lighter in weight allowing more lineal footage per roll (fewer lap joints)
- Qualifies for LEED credits
- UV resistant
- Master Spec approved

### Weights & Widths:

Copper Sealtite 2000® is available in 2oz., 3oz., and 5oz. copper weights.

Widths: 12", 16", 18", 24", 32", 36"

Lengths: 25' or 60'

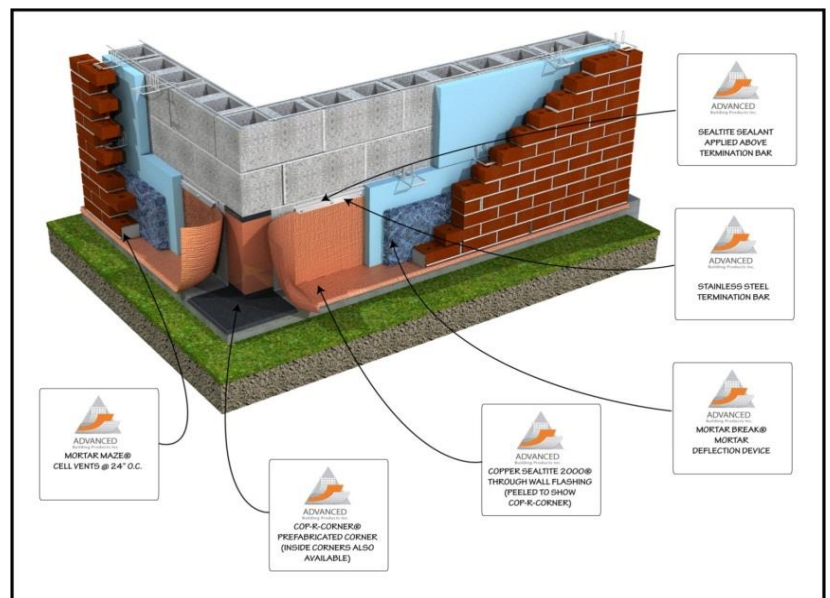

### Features:

Copper Sealtite 2000® is a permanent, premium quality laminated thru-wall flashing consisting of five (5) layers of time proven waterproofing materials combined under heat and pressure into a single sheet. It is flexible and is easily formed by hand at the jobsite.

### Installation Recommendations & Specifications:
